

Vincent & Lola

MRT

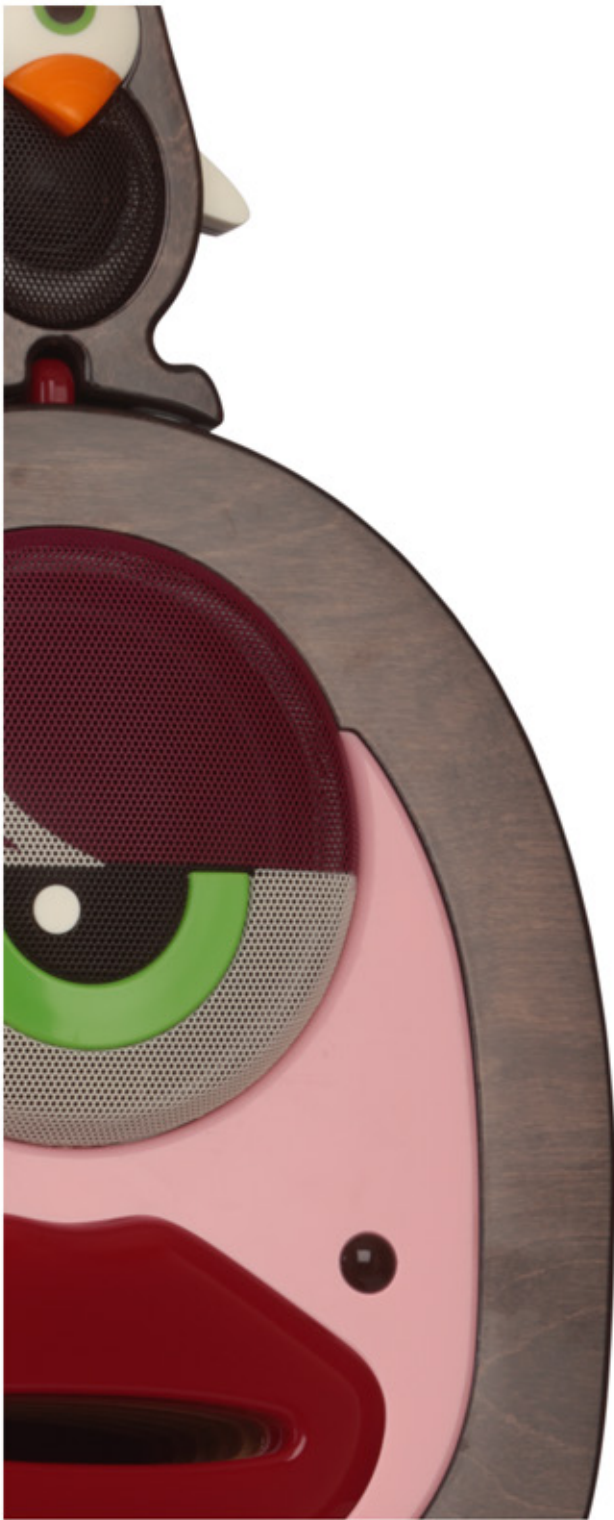

Vincent & Lola MRT

Designed to be placed on a stand, this is the larger version of Vincent/Lola. Thanks to its uncompromising construction, we have been able to come up with a piece of furniture with unrivalled sturdiness and sound characteristics. The tuning tube boasts the same geometry that sets the whole range of Vario's models apart. The great Vincent/Lola features a 5½" woofer with a polypropylene cone and a ferrite+neodymium magnet. The tweeter inside the belly of the little sparrow "Tito" is a 28 mm soft dome component, also with neodymium magnet.

Exclusive design and "state of the art" construction make the great Vincent/Lola loudspeakers suitable for all music genres and environments, from the domestic to the professional ones; they provide an extremely emotional listening experience.

Technical specifications
